

Society for Risk Analysis

# Advancing the science and practice of risk analysis

---

## Core Ideology

A safer world through  
the science and practice  
of risk analysis

Improving life through  
the science and practice  
of risk analysis

## Vision

The world's leading  
authority on risk  
science and its  
applications

---

We empower  
professionals, decision  
makers and the public with  
the science and tools of  
risk analysis to better  
assess, manage, govern  
and communicate risk

## Goals

- 1. Enhancing the risk science and profession**
  - a) Foster risk analysis as a science
  - b) Foster risk analysis as a profession
- 2. Influence and strengthen impact globally**
  - a) Empower people with the science, knowledge and tools of risk analysis to better assess, manage, govern and communicate risk
  - b) Enable worldwide sharing of knowledge and learning
- 3. Expand the organizational capacity and efficiency of SRA**
  - a) Increase memberships, member engagement and involvement
  - b) Improve the governance structure and efficiency
