 - Discussion of ideas from participants and from December business meeting
 - Tentative speakers
 - Richard Judson or George Daston on genomics and DR
 - Weihshui Chiu on high level theoretical methods, applications
 - Roger McClellan or another speaker on contemporary issues (vaping, glyphosate, perfluorates, talc, asbestos)

Addendum: Draft Notes from DRSG Business Meeting, Arlington, VA

12 December 2019

Prepared by Peg Coleman

Outgoing Chair Ingrid Druwe provided a recap of 2019.

Webinars summary:

- Dustin Long, EPA, Cox proportional hazard regression and splines
- Joe Cortinas Abrahantes, EFSA, harmonization
- Jeff Gift, EPA, BMD
- Grace Patlewicz, read across GenRA

Student Award Winners:

- Diene Tolofari
- Zheng Zhou

Outgoing and Incoming Executive Committee were announced, with an election for student liaison.

Officers for 2020:

- Matt Wheeler, Chair
- Scott Auerbach, Chair Elect
- Jeffrey Dean, Vice Chair
- Sarah Davidson, Student Liaison
- Allen Davis, continuing as Trustee At Large
- Dustin Kapraun, continuing as Trustee At Large

Outgoing Chair Ingrid Druwe noted that DRSG teleseminars have been somewhat government heavy; looking to include wider diversity of speakers for 2020.

Teleseminar/Symposium Ideas for 2020:

- Perfluoronates speaker suggested by Roger, Ellen Chang
- Roger McClellan, actively involved as editor of Rev Tox, glyphosate (Roundup) risks, important issues, multidimensional problems and litigations, what are safe herbicides; Talc, Johnson & Johnson, contamination with asbestos, dermal and inhalation exposures, ...
- Good fits for cross cutting problems, perhaps jointly with other SGs
- Bigotry of disciplines, multidisciplinary problems (maybe too many SG)
- Jacqueline: dose-response for vaping products? Roger looking for authors of vaping, oral health, Roger can offer a name
- Roger likes idea of topic with speakers from different perspectives
