

HDRSG Officers' Meeting

March 11, 2025

Attendees: Chase Anderson, Michael Dzierlenga, Paul Schlosser

Chase has had some communication from group working on handbook revision, but nothing else from SRA.

Michael requested update on membership and account from SRA, but no response.

Michael showed a draft HDRSG member survey.

- Specific questions are being reviewed.
- Re symposia for the annual meeting, it seems that few SRA members are submitting such proposals.
- We want to encourage working with the HDRSG (other members) on developing symposia.
- Minor revisions were suggested
- Will plan to allow 2 weeks for response

Chase checked and was able to access the official HDRSG membership list on SRA's website, which she sent to Michael.

The survey will be especially helpful in identifying speakers/topics for upcoming webinars. We are still planning those for June and October but don't currently have speakers identified. Paul will try to check on status of Jeff Schroeter and Annabel Meade, who were going to speak on inhalation dosimetry of tobacco smoke.

The change in SG membership fees was passed by SRA council. We will see how that impacts HDRSG membership.
